

# Walking & Cycling in Dover District

## Have your say!

### Dover District Cycling and Walking Infrastructure Plan (LCWIP)

Sustrans is working with Dover District Council to develop a Local Cycling and Walking Infrastructure Plan (LCWIP). The LCWIP is a district-wide plan which seeks to connect people and places across the District with safe and accessible routes for everyone.

In 2020 Sustrans conducted a number of 'town audits' in Aylesham, Deal, Sandwich and Dover Town. This LCWIP builds upon the 2020 work and will identify further routes which will help to connect settlements across the District.

### HOW CAN YOU HELP?

We would like to hear from you about existing barriers to walking and cycling across the District, core walking zones, and suggestions for new routes between the settlements. We would also like your help in prioritising the routes of previous studies.

Come along to one of our drop-in workshops to help us understand what we've got right and what we could improve, and also which routes of the existing local LCWIPS are of the highest priority.

Separate online-engagement events and an online consultation tool will be available if you can't make it in person.

**Drop-in: Monday 13 May 2:30pm - 6:30pm or Tuesday 14 May 10am - 1pm**  
St. Mary's Church, Cannon Street, Dover, Kent CT16 1BY

You **DO NOT** need to attend the whole event.  
Just drop-in for however long you want, even if it's just for 10 minutes.
